FAMILY CHIROPRACTIC & WELLNESS FINANCIAL POLICY

Our recommendations are based on a desire to see you get well and stay well. Chiropractic care is covered under many insurance plans. Most of our patients that have health or accident insurance will fall under one of the plans discussed in this policy. Regardless of your coverage, we will suggest the chiropractic care we think you need. We ask that you read and understand our policy as it applies to your particular situation.

PATIENTS WITHOUT INSURANCE

We request that 100% of the first visit be paid at the time of the visit. On other visits, payment may be made at the end of the week if you sign a credit guarantee form. We are happy to accept your check, Master Card or Visa.

GROUP OR INDIVIDUAL INSURANCE

Your insurance is an agreement between you and your insurance company, not between your insurance company and our office. When possible, we will call to verify benefits on your insurance. However, the benefits quoted to us by your insurance company are not a guarantee of payment. Payment will be due by you at the time of service for any non covered services, deductibles or co-pays.

"ON THE JOB" INJURY (Worker's Compensation)

If you are injured on the job, your care should be paid for under your employer's Worker's Compensation insurance. You will need to inform your employer of the accident and obtain the name and address of the carrier of their insurance. If your employer does not provide us with this information, if a settlement has not been made within 3 months, or if you suspend or terminate care, any fees and services are due immediately.

PERSONAL INJURY OR AUTOMOBILE ACCIDENTS

Please notify your auto insurance carrier of your visit to our office immediately. Notify our insurance department immediately if an attorney is representing you. Although you are ultimately responsible for your bill, we will wait for settlement of your claim for up to six months after your care is initiated. Once the claim is settled or if you suspend or terminate care, any fees for services are due by you immediately.

MEDICARE We do not accept Medicare Insurance. All other services we provide are NON-COVERED. These services include, electric muscle stimulation, hot/cold therapy, rehabilitation, trigger point therapy, cold laser therapy and/or nutritional supplements. Medicare patients are fully responsible for charges of non-covered services.

INSURANCE FORMS/PAYMENT

I have read and understand the payment policy of Family Chiropractic. I understand that my insurance is an arrangement between myself and my insurance company, NOT between Family Chiropractic and my insurance company. I request that Family Chiropractic prepare the customary forms at no charge so that I may obtain insurance benefits. I also understand that if my insurance does not respond within 60 days, or if I suspend or terminate my schedule of care as prescribed by the doctors at Family Chiropractic that fees will be due and payable immediately.

MISSED APPOINTMENT POLICY

We want to thank you for choosing us as your chiropractic health provider. In order to provide you and our other patients with the best optimal spinal care, we request that you follow our guidelines regarding broken and/or cancelled appointments. Please remember that we have reserved appointment times especially for you.

Therefore, we request at least 24 hours' notice in order to reschedule your appointment. This will enable us to offer your cancelled time to other patients that desire to get their treatment completed. When you cancel your appointment at the last minute, everyone loses — you, the doctor and other patients that would like to have utilized your appointment time.

Our office does charge for broken or cancelled appointments; please realize how important it is to keep your reserved time. A charge of \$40.00 will be your responsibility and charged to you. Thank you for your cooperation of our policies.

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures, if indicated. Any examinations or tests conducted will be carefully performed, but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including, but not limited to, hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an arterial dissection that involves an abnormal change in the wall of an artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. This occurs in 3-4 of every 100,000 people, whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke. As chiropractic can involve manually and/or mechanically adjusting the cervical spine, it has been reported that chiropractic care may be a risk for developing this type of stroke. The association with stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
